

Mojibul Rahman

VISION ENGINEER | Machine Vision & Image Processing Specialist |

Email: mojibulrahman489@gmail.com | **Phone:** +919971406916 |

LinkedIn: www.linkedin.com/in/mojibul-rahman-7b15bb231 | **Location:** Bangalore, India

Professional Profile

Highly motivated Application Engineer with hands-on experience in **Machine Vision systems (OPT Smart3 & KEYENCE)**. Skilled in improving manufacturing quality through **image processing, calibration, and troubleshooting of CCD cameras**. Strong foundation in **Java and Python**, with a keen interest in applying technical skills in a challenging engineering role.

Experience: [3+ Years]

Vision Engineer @ REYOCTO INFOTECH PVT LTD.

Bangalore, India April 2026 – Present

- **Client Support:** Providing on-site vision engineering support at **Bosch Limited** for vision system development, commissioning, and production support.
- **3D Vision:** Developing **KEYENCE LJ-X 3D Laser Profiler** inspection programs for presence/absence and defect detection.
- **2D Vision & AI:** Configuring **KEYENCE VS Creator** applications using **AI Classification** and **Segmentation** tools for automated inspection.
- **Vision Sensor:** Developing inspection applications on **KEYENCE IV4 AI Vision Sensor** for presence/absence detection.
- **System Optimization:** Performing vision debugging, parameter tuning, validation, and troubleshooting to ensure stable production performance.

Application Engineer @ OPT Vision Limited

Bangalore, India August 2025 – April 2026

- **Machine Development & Vision Integration:** Supported XNG Pvt. Ltd., Peenya, Bangalore, developing and integrating vision programs for new machines.
- **Vision Application Development:** Designing and implementing vision programs using OPT Vision / Smart3 software for accurate inspection.
- **Calibration & System Setup:** Performing LBU setup, rotation calibration, multipoint calibration, fine-tuning, and template teaching to achieve stable and precise results.
- **Technical Support & Troubleshooting:** Providing remote and on-site support, resolving vision-related issues during machine setup and production.
- **NPI & Customer Deployment:** Supporting NPI and LBU activities at multiple customer sites in Bangalore and Chennai, ensuring smooth vision system deployment.

Vision Engineer @ Lihexing/P&A | (OSS Vendor supporting KEYENCE LIMITED) |

Bangalore, India July 2023 – August 2025

- **Vision Application Development:** Developed and optimized vision inspection programs using **KEYENCE VisionEditor** for industrial automation applications.
- **Camera Calibration & Setup:** Performed camera setup, user frame calibration, rotation calibration, multipoint calibration, lens adjustment, and lighting optimization for accurate inspection.
- **Machine Commissioning & Production Support:** Integrated vision systems during machine commissioning and provided on-site production support to ensure stable machine performance.
- **Customer Deployment:** Successfully deployed and maintained vision systems at major customer sites, including **TATA Electronics System Solution** and **Foxconn**.
- **Technical Troubleshooting:** Diagnosed and resolved issues related to CCD cameras, 3D laser sensors, vision programs, lighting systems, and communication interfaces.
- **Cross-Functional Collaboration:** Worked closely with customers, PLC engineers, robotics engineers, and automation teams to ensure seamless machine integration and reliable operation.

Technical Skills:

- **Machine Vision:** OPT Smart3, KEYENCE Vision Systems, VisionEditor, VS Creator, LJ-X 3D, IV4 AI Vision Sensor, FANUC 3D iRvision.
- **Vision Inspection:** Vision Application Development, Image Processing, OCR/OCV, Barcode Inspection, AI Classification & Segmentation, Lighting Optimization.
- **Calibration & 3D Vision:** CCD Camera Setup, User Frame, Rotation & Multipoint Calibration, LBU Setup, Template Teaching, 3D Sensor Calibration, Height & Profile Measurement.
- **Industrial Automation:** Machine Commissioning, Vision System Integration, NPI Support, Production Support, Troubleshooting, Root Cause Analysis, Documentation.
- **Programming:** C#, Python, SQL.

Projects & Publications:

Real-time Face Recognition System

- **Developed** a secure, real-time Face Recognition System utilizing Python, OpenCV, and Machine Learning algorithms.
- **Impact:** System designed to enable touchless attendance and secure authentication protocols.
- *Research Paper Published:* FACE RECOGNITION SYSTEM USING OPENCV.

Education:

B.Tech in Information Technology (Graduate) : Guru Nanak Institute of technology | Kolkata, West Bengal August 2019 – June 2023 | **DGPA:** 8.76

Intermediate : Ram Rati Devi Inter College Chauki Hasan, Siwan (BSEB) | Siwan, Bihar 2018 | **Percentage:** 58.8%

Matriculation : Emmanuel Mission High School, Siwan (CBSE) | Siwan, Bihar 2015 | **CGPA:** 7
